

Lip care system, three products that give your lips A Lip-Ink® Spa Treatment

Wax Free Healthy Natural solutions by Lip-Ink® International

APPLICATION AND BENEFITS:

- 1 Purify your lips with Lip-Ink Off® solution. This Natural Herbal OFF soap, will not only cleanse your lips, it also helps with the natural exfoliation process (*apply as a compress, let set 60 seconds*). Follow by splashing with water then pat dry.
- 2 Lip-Ink® Lip Smoothe Scrub, with Macadamia Nut Oil, "*the closest natural oil to our own skin's oil*" and natural Banana flavor combined with natural sea salt will exfoliate, smoothe and renew your lips while the Plant protein Peptides build collagen tissue for fuller, more defined lips. With an increased blood flow, your lips should appear rosy pink, plump, soft, polished with a dewy fresh smoothe finish.

Start with Lip Loofah Buffer. First wet the loofah with water, use your loofah, to apply Lip-Ink® Lip Smoothe Scrub sparingly to lips, massage in circular motion as needed, then splash with water and pat dry.
- 3 Now complete the process with our Lip-Ink Shine Moisturizer® packed full of maximum hydration consisting of vitamins, Minerals, antioxidants and UVA/UVB sun protection.

You can stop here -- Or begin the colorization process. Be sure to ask how we can create over one million colors to suit your natural healthy lifestyle.

NOTE: The LIP-INK® waxfree, guaranteed smearproof & long-lasting, multi-patented color product line is not compatible with any other cosmetic products. LIP-INK® Color Cosmetics are based on scientific research and are protected by U.S. and International patents. Competitive products cannot legally duplicate LIP-INK® Color Cosmetics and their precise chemistry. New customers should start with a kit when purchasing any of our guaranteed smearproof color.

SAFE PRODUCT USE: If you experience any adverse reactions from use of this product, immediately discontinue use. Keep out of heat. The codes that appear randomly on vials provide Internal QC information only.
